WELCOME TO NASHVILLE

Chartered in 1939 as a board-run, quasi-government agency, NES distributes power to all of Davidson County (Metro Nashville) as well as portions of six counties in Middle Tennessee.

Today, NES is the 11th largest public power utilities in the nation. We deliver safe, reliable and affordable power to more than 415,000 customers in our service area.

NES is among only 4% of all public utilities in the country to receive the Reliable Public Power Providers Diamond Award, one of the industry's highest honors.

Preparing for the Future...Today

NES 11th Avenue Substation, Nashville

11th Avenue Substation

- Total investment: \$72.2M
- Man hours: 160,000
- Business partner vendors: 40
- High/Medium voltage: 20,000 ft.
- Low Voltage cables: 30,000 ft.
- Grounding: 15,000 ft.
- Cable tray: 2,000 ft.
- Low Voltage cable terminations: 20,000

- The 10th Avenue substation served Nashville since 1953 but city growth required redevelopment to 11th Avenue.
- New substation accommodates expansion in North Gulch and downtown areas.
- Spring 2020 storms and the pandemic slowed progress but go-live target date of spring 2021 was met as substation was energized in May.
