Why be a Sponsor at UTA 2022 Conference?

UTA is a member ran association that annually host a 2 ½ day conference for its utility and vendor members. Our objective each year is to provide an enjoyable and effective learning experience at an affordable cost. We realize the importance of our vendor members and the sponsorship they provide helps UTA balance the attendee's experience to the cost of the event. At this conference, you will have the opportunity to meet and network with utility personnel from all over the south east. You will be able to engage with CTOs, CIOs, decision makers, developers, network specialist, security officers, customer care managers that are all looking to improve their utility's technology solutions. It is the perfect place and time to introduce your company, display and demonstrate your products, share your message on services, build your company's awareness to prospective utility customers.

Who Attends UTA Conferences?

We have a strong showing of repeat attendees as well as new utility members attend UTA conferences. We pick a different location each year and this year we will be in the Rock-a-Billy city Jackson, TN. We are a close nit group that stay in contact with each other and enjoy this annual time to network together and collaborate on technology and opportunities facing the utilities industry.
